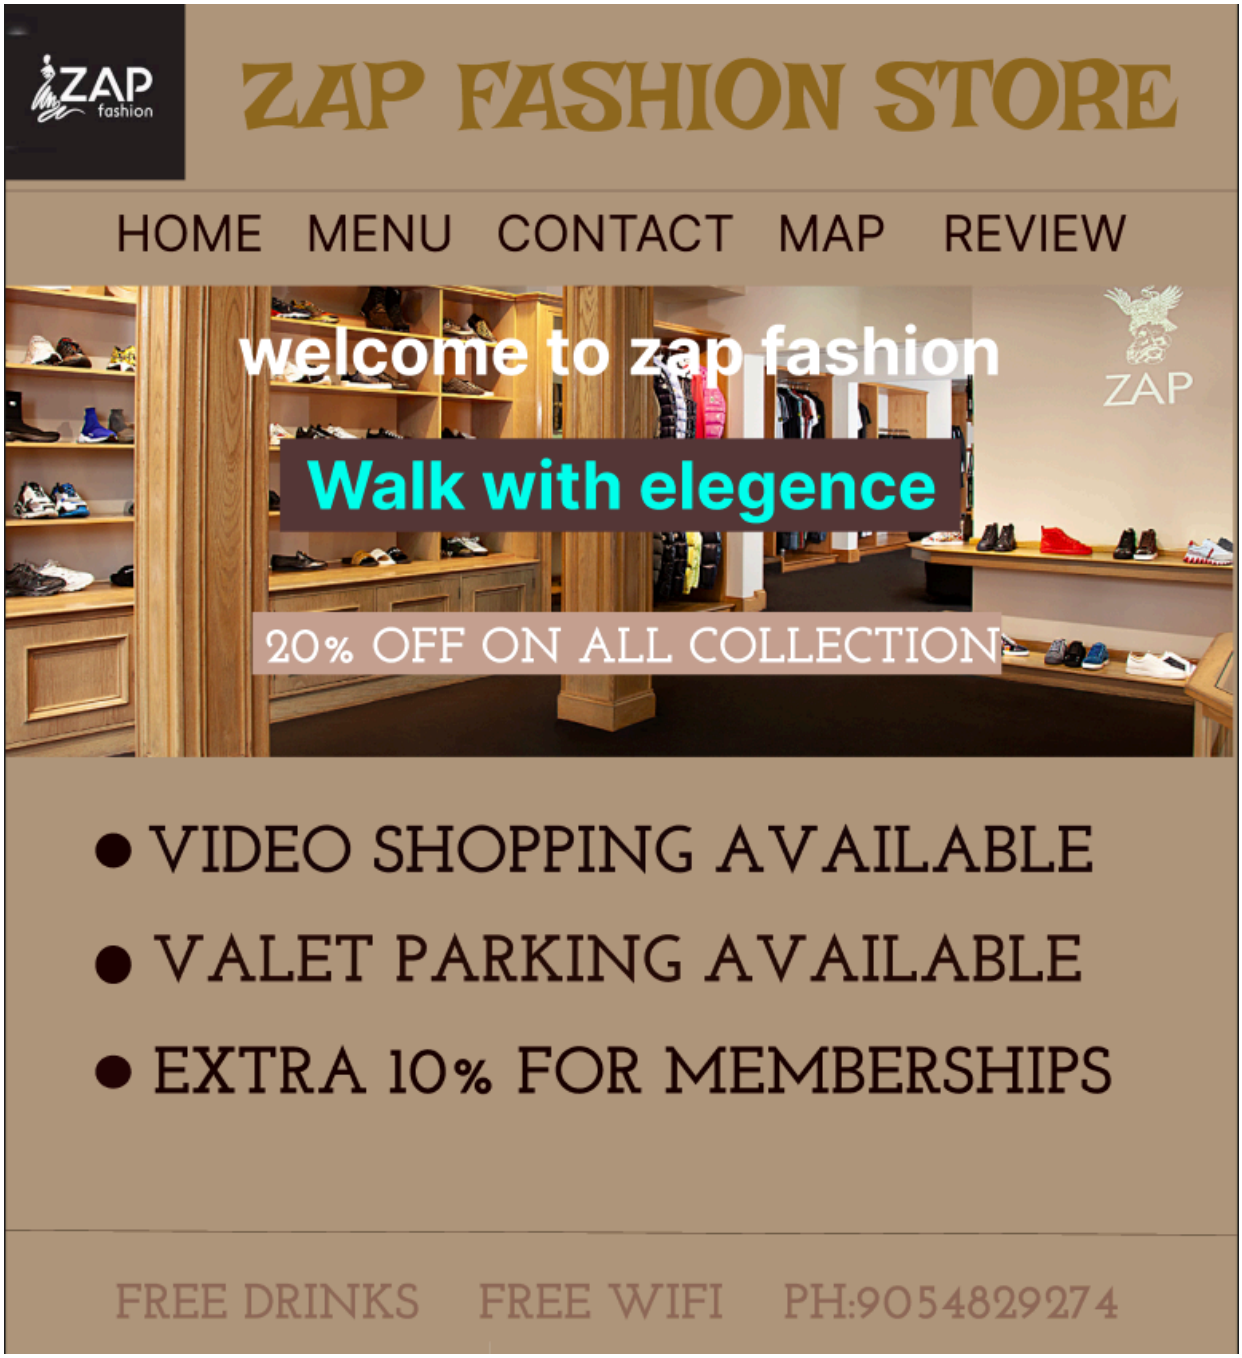
USER INTERFACE DESIGN

COMPARISION OF TWO UI DESIGN BETWEEN TWO FIGMA CREATION

BAD WEBSITE

GOOD WEBSITE



BAD WEBSITE – *ZAP Fashion Store*

1. Design Style

- Uses bright and contrasting background colors (red, yellow, pink, grey).
- Displays large product images for Women's, Men's, and Kid's wear.
- Overall layout looks simple but visually inconsistent due to multiple colors.

2. Content

- Shows only product categories: **Women's Ware, Men's Ware, Kid's Ware**.
- Very limited text content.
- No promotional message or brand story.

3. Navigation

- Basic navigation menu: **Home, Menu, Contact Us, Map, Review**.
- Navigation is functional but lacks visual hierarchy.
- No call-to-action buttons.

4. Purpose

- Designed mainly to display clothing categories.
- Focuses on browsing rather than user engagement.
- Suitable for a basic product listing page.

GOOD WEBSITE – *ZAP Fashion Store*

1. Design Style

- Uses a warm, elegant color palette (brown, beige, gold).
- Includes a professional store interior image as a hero banner.
- Typography and spacing create a premium and polished look.

2. Content

- Includes welcoming text: **"Welcome to Zap Fashion"**.
- Strong tagline: **"Walk with elegance"**.
- Promotional offer: **20% OFF on all collections**.
- Highlights additional services like:
    - Video shopping
    - Valet parking
    - Extra 10% for memberships

3. Navigation

- Clear and well-structured navigation bar.
- Brand logo included, improving identity.
- Easy access to important sections.

4. Purpose

- Focuses on branding, customer attraction, and promotions.
- Encourages users to visit the store or shop more.
- Suitable for marketing and customer engagement.
